

**IN THE CLAIMS:**

The following listing of claims will replace all prior versions, and listing of claims in the application:

**LISTING OF CLAIMS:**

1. (Currently amended) A carriage module for a scanner, comprising
  - a case;
  - an image sensor arranged in the case;
  - a mirror set arranged in the case and used to guide a reflected light from a document to be scanned to the image sensor;
  - a lens set placed between the image sensor and the mirror set and used to focus the reflected light from the document to the image sensor;
  - the case composed of a first shell and a second shell, said first and second shell being telescopically coupled each to the other wherein the second shell has a larger length than that of the first shell, the second shell is movably arranged in the first shell and can be moved along a horizontal direction.
  
2. (Original) The carriage module as in claim 1, further comprising a light source atop the case.

MR1957-630

Serial Number: 10/028,680

Reply to Office Action dated 28 July 2005

3. (Original) The carriage module as in claim 1, wherein the image sensor is a charge coupled device (CCD).

4. (Original) The carriage module as in claim 1, wherein the mirror set comprises a plurality of reflection mirrors in the case.

5. (Original) The carriage module as in claim 1, wherein the lens set comprises a lens.

6. (Original) The carriage module as in claim 1, wherein the lens set further comprises focusing unit to refocus the reflected light.
